

Swanson Amphitheatre @ Umpqua CC

Roseburg, Oregon

The Swanson Amphitheatre at Umpqua Community College is an outdoor theatre which was completely donated by the Roseburg Rotary Club to the college. This facility is located on the Umpqua Community College campus in Roseburg Oregon. The facility combines theatre, music, graduation, and student events in a beautiful outdoor setting.

The facility was designed to fit the campus architecture and yet function as a small event center for weddings and many other local events. Paul L. Bentley, Architect donated all services for this great community project.
